G4 FC
Tracklight with RGBL LED

INDOOR LIGHTING

OUTDOOR LIGHTING

ZENIT® W600I
Outdoor LED Wash Light
for Fixed Installation

Q-SPOT 40I W
Compact IP65 Outdoor Spotlight
with 40 W RGBA LED

Illuminate your world after dark

Cameo outdoor lighting offers a range of fixtures, including durable in-ground lights and robust floodlights, built for aesthetic appeal and resilience.

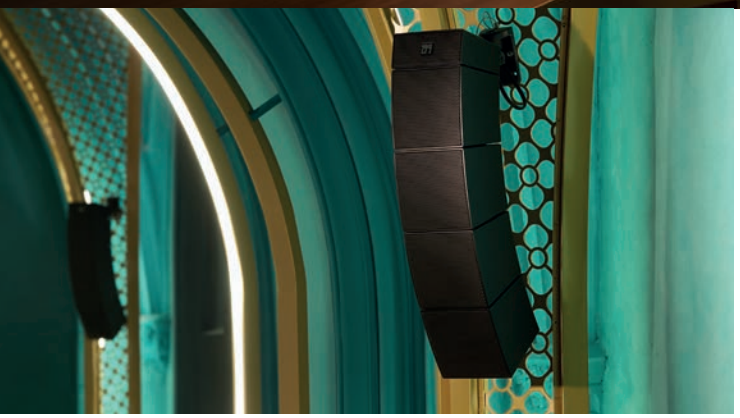
The architectural series, feature elegant wall washers and spotlights, accentuating building features, while the Zenit series allows for dynamic, colourful displays. Providing precise beam shaping for diverse architectural needs. With user-friendly control systems, compatible with DMX interfaces and W-DMX™ technology, Cameo ensures ease of use and versatility in lighting design, making it ideal for enhancing outdoor spaces.

PRODUCT APPLICATIONS

Our products are designed, and precision engineered in Germany and built to deliver years of service. Our attention to detail for aesthetics is equally as important, so our products are designed to blend in with your architecture.

Our expert service and support teams means that we can be with you every step of the way from design and planning through to after-sales support.

Plan your next project with Adam Hall to fully realise your vision.



SOUND FOR THE PALACE

LD SYSTEMS AT THE W BUDAPEST HOTEL

151 rooms in the historic Drechsler Palace, directly on the famous Andrássy Avenue shopping boulevard – since the opening of the W Budapest in the summer of 2023, the Hungarian capital has a new hotel highlight in the luxury segment. After an extensive restoration phase, the 5-star hotel of the Marriott chain delights with its mix of historical elements and modern design. To welcome the guests of the W Budapest with appropriate and versatile audio that can do more than just background music, the contracted integrator ComplexIT relied on a combination of CURV 500 portable array systems and active subwoofers from the MAUI G3 series.

MULTI-ZONE AUDIO SYSTEM

LD SYSTEMS AT ARCA RESORT IN ROMANIA

If you want to eat particularly fresh fish in Romania, you can't avoid the ARCA Resort. Located directly at a large fish pond, the owners of ARCA run a high-quality fish restaurant with its own fish farm. But the building complex offers its guests much more than that: weddings and corporate events, tiny houses on the shore of the lake and a park with playgrounds and sports fields for children and adults. In order to provide the multifunctional location with audio signals as flexibly as possible, integrators Direct Sound took advantage of the extended closure period during the COVID pandemic to install a multi-zone audio system based entirely on LD Systems solutions.

QUESTRA

IPA SERIES

Configure and control multiple IPA series amplifiers

X EDAI or X ECI

Add networked control and Dante audio networking with optional interface cards

QUESTRA SOFTWARE

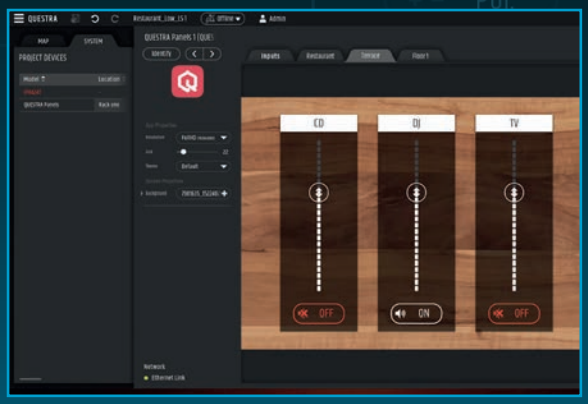
For Windows

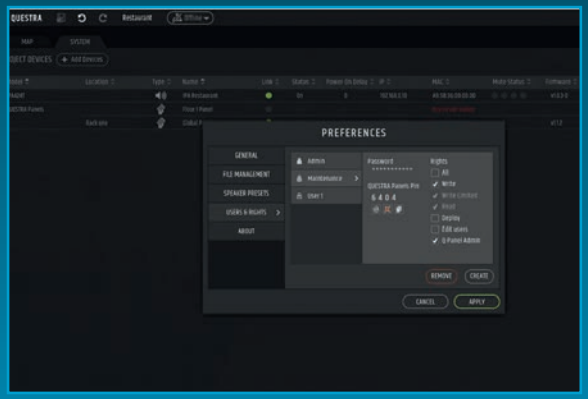
With QUESTRA® you gain access to the full DSP capabilities of LD Systems' audio installation devices. It allows you to configure audio networks, small and large. Manage every single device and control it from a single application.

Plan and prepare system configurations install project before installing any hardware on site. Quickly create end-user interfaces to demonstrate to customers before they buy.

Upload your offline configuration to all the online devices on the network, fine-tune the project and device settings and you're done! QUESTRA® makes your work easier with its intuitive User Interface.

QUESTRA® puts you in control of all your installation projects. Create users, assign specific roles, limit access to ensure critical network settings can't be modified. Easily create and manage device presets for different user applications for users to trigger using QUESTRA® Panels. With remote access monitor your installation and provide maintenance from anywhere.





SIMPLY POWERFUL

Meet QUESTRA® the design and management software for networked LD Systems installation solutions. QUESTRA® enables a streamlined configuration of LD Systems devices and the design of custom user panels that can be controlled on both Windows computers and Android or iOS portable devices.

QUESTRA Panels

App for custom panels
for Windows, iOS & Android

QTP 8 AND QTP 5

QUESTRA Touchscreen Display (8-inch or 5-inch) with Android 11 and PoE

TICA SERIES

Flexible, affordable, compact audio components

Flexible and affordable professional audio solutions! The TICA® series offers a versatile range of products that seamlessly integrate in both smaller and larger audio setups. TICA® stands as a testament to thoughtful engineering, enabling users to customize their audio systems by mixing and matching components to meet specific needs.

Experience unparalleled flexibility and exceptional features without breaking the bank with the TICA® Series!

DANTE INTERFACES

THREE MODELS TO GET YOUR AUDIO ON AND OFF THE NETWORK

Compact Dante interfaces with varying input output options, balanced audio and PoE powered

HEADPHONE AMPLIFIER

FLEXIBLE MONITORING AND CONNECTIONS

Listen your way! With configurable listening modes and daisy-chaining for larger set ups

AMPLIFIERS

FIVE MODELS WITH VARYING CHANNEL COUNT AND CONNECTIVITY OPTIONS

Mono, stereo or four channel, Dante and HDMI options to suit your exact application

RSMP

RADIO STREAMING MEDIA PLAYER

Multi-source content player, stream from thousands of internet stations, Bluetooth, USB stick and more

LOUDSPEAKERS

THE KEY TO GREAT SOUND

With dozens of models to choose from, you'll find the right loudspeaker for every application.

CURV 500®

An array of possibilities

Indoors · Foreground · Background · Speech

Flexible, scalable array with WaveAhead® technology and expandable horizontal & vertical coverage for amazing sound pressure and excellent balance.

Constructed around our SmartLink® plug-and-play adapter, numerous mounting solutions are offered, including optional extensions and additional coverage control.

MAILA®

Scalability, streamlined

Speech · Foreground · Indoors

MAILA (Modular All-Round Intelligent Line-Array) offers the most diverse, flexible and scalable sound reinforcement system from conferences and weddings to festivals.

MAILA takes user-friendliness for line arrays to a whole new level with the technoligies like EasySplay® and many other innovative features.

DQOR® SERIES

Linger for longer in an inviting ambience

Background Speech Indoors Outdoors

Quality wall-mounted loudspeakers in a variety of sizes to cover the smallest corner to open spaces. Ideal for speech reinforcement and background music.
Red Dot Award Winner 2021.

CONTRACTOR® SERIES

Dependable integration

Background Speech Indoors

The workhorses of any installation. Our range of ceiling and wall mount loudspeakers deliver quality wherever you need it. CONTRACTOR® Series can be perfectly combined thanks to their uniform look and are the elegant solution for unobtrusive audio systems. The range includes ceiling, on wall, in wall and even frameless models.

MAUI® i1

Weatherproof Elegance

Background Speech Indoors Outdoors

Excellently suited for permanent and discrete integration into virtually any setting, with an extensive range of smart mounting accessories. For acoustically challenging interiors where music and speech must be clearly understood, even in the very last rows, there is one solution - MAUI® i1 W.

MAUI® P900

Quality, power and beauty

Foreground Background Indoors

Developed in collaboration with Porsche Design Studio, the LD Systems MAUI® P900 provides excellent reproduction clarity and outstanding high-definition sound. Combining state-of-the-art audio technology and eye-catching elegance, the MAUI® P900 is the perfect choice when your live events and installation environments call for stellar sonic performance and style.

EASE GLL Files Available for all Loudspeakers

SIGNAL PRO & AMPLIFIE

VOLUMES OF INTELLIGENCE

Processing and power for all applications.

ZONE X SIGNAL PROCESSING

Routing and DSP flexibility

A completely flexible signal processor, ZONE X can adapt your sound system for any circumstance or possible use. The 12 balanced mic/line inputs, 12 line outputs, GPIO and optional Dante audio networking compose a fluid control solution. Users can also deploy calendar-managed workflows with the freely available designer software on MacOS & Windows platforms.

IPA SERIES AMPLIFIERS

Power, scalability and control

DSP-based design enables the IPA series to retain flexibility in fixed-installation system designs, with control available from remote panels and paging microphones. IPA amplifiers offer four output channels with optional Dante and Ethernet control expansion cards for seamless integration into larger audio systems.

Model	Channels	Power per Channel
IPA 424 T	4	240 W @ 4 Ohms / 70V / 100V
IPA 412 T	4	120 W @ 4 Ohms / 70V / 100V

OCESSING
ERS

IMA® SERIES MIXING AMPLIFIERS

Modern & all-in-one

The IMA®-Series presents an all-in-one mixing amplifier-series offering seamless integration for industrial and commercial applications with a wide range of connectivity options including Bluetooth® for wireless audio connection and a multistage priority circuit.

Model	Power per Channel
IMA 30	35W @ 4 Ohms / 100 V / 70 V
IMA 60	65W @ 4 Ohms / 100 V / 70 V
IMA 120	120W @ 4 Ohms / 100 V / 70 V
IMA 240	240W @ 4 Ohms / 100 V / 70 V

PRE ST1 MIXER

Friendly and approachable sound control

Introducing multi-purpose sound to your space without complication, the PRE ST Mixer Preamplifier allows any input from microphones, DJs, music players and video players to play in any room.

LIGHTS

Make every performance shine

Cameo's live performance lighting fixtures are ideal for permanent stage setups, offering a range of high-intensity moving heads and versatile static lights.

The moving heads provide stunning, precise effects, perfect for dynamic shows.

PAR lights ensure vibrant, even colour blending, essential for creating the right atmosphere.

These fixtures are not only powerful but also user-friendly, with intuitive controls and DMX control, making them a preferred choice for professionals seeking effective, dependable lighting for permanent performance venues.

G SERIES

VERSATILE AND ROBUST MOVING HEADS FOR PROFESSIONAL LIGHTING

High-quality optics, flexible zoom, CMY color mixing, dual gobo wheels, 4-blade system

H SERIES

ADVANCED LED WASH LIGHTS WITH EXCEPTIONAL COLOR RENDERING.

Uniform wash, wide color palette, energy-efficient, long lifespan, easy installation

CONTROL PAD STICK EDITION

INTUITIVE CONTROL PAD FOR EASY LIGHTING MANAGEMENT.

Touch-sensitive interface, customizable controls, compact size, DMX compatible, versatile use.

ZENIT® SERIES

POWERFUL, FLEXIBLE LED WASH LIGHTS FOR CREATIVE LIGHTING.

Wireless control, vibrant colors, W-DMX™ enabled, weather-resistant, user-friendly.

Q-SPOT40I

COMPACT, INTENSE SPOT FIXTURE FOR DYNAMIC LIGHTING EFFECTS.

Bright output, sharp gobo projection, smooth dimming, fast movement, compact design

DURA® SPOTS

DURABLE, HIGH-PERFORMANCE ALL-WEATHER OUTDOOR LIGHTS

IP65-rated, robust build, versatile beam angles, exceptional brightness, energy-efficient
